Highlights

ICSA Initiatives

ICSA is excited to share several key initiatives and collaborations with our members:

- Collaborates closely with other statistical associations: ASA, IMS, ISI, IISA, KISS, and ITSA.
- ICSA and IMS have established a joint membership. The two associations are working on systems to let members have the option to join/renew joint memberships at a discounted rate.
- Established a new ICSA award category: ICSA Student Service Award, to recognize outstanding service, leadership, and unselfish contributions by student members of the International Chinese Statistical Association (ICSA).
- To establish an ad hoc committee: ICSA Committee on Memorials to ensure proper steps are taken to honor distinguished ICSA members.
- Planning to celebration the 40th anniversary of the ICSA.
- Call for Future ICSA Activities
  - JSM 2027 ICSA-sponsored invited session proposals: Hongjian Zhu (hongjian.zhu@systimmune.com)
  - Invited session proposals for ICSA 2027 Applied Statistics Symposium: Guan Yu (guy24@pitt.edu) and Lu Tang (lutang@pitt.edu)
  - Invited session proposals for ICSA 2027 China Conference: Linjun Zhang (lz412@stat.rutgers.edu)

- ICSA Webinars: Qing Yang (qing.yang@duke.edu), Deli Wang (wangdeli@gmail.com)
  - slides are available in this link: https://www.icsa.org/webinars/past-webinars/
- Mentor/Mentee Program: Yushi Liu (liu_yushi@lilly.com), Hanfei Xu (hanfei.xu@lilly.com)
- ICSA sponsored events: Xiaowu Dai (dai@stat.ucla.edu), Rui Feng (ruifeng@pennmedicine.upenn.edu)
- ICSA 2027 Award nominations: Haitao Chu (haitao.chu@pfizer.com)
- ICSA 2027 Election nominations: Hongjian Zhu (hongjian.zhu@systimmune.com)
- IT volunteers: Chengsheng Jiang (website@icsa.org)

Call for "Springer Book on ML/Deep Learning/AI in Biostatistics and Bioinformatics"

Professors Yichuan Zhao, Xiao Wang, and Ding-Geng Chen invite submissions for a new Springer book on machine learning, deep learning, AI, biostatistics, and bioinformatics, covering new methods, theories, and applications across these areas. All submissions will be peer-reviewed, with final acceptance decided by the co-editors.

1) Indicate your intent of submission **by October 31, 2026**, with a tentative title of the paper (you can change the title later), your name (first, middle and last), and your affiliation. Please email this information to Yichuan Zhao at yichuan@gsu.edu.
2) Submit your full manuscript by **December 31, 2026**; decisions will be announced by **June 30, 2027**.
3) The book is expected to be published by **December 31, 2027**.

Co-Editors:

Yichuan Zhao, Georgia State University, Atlanta, Email: yichuan@gsu.edu

Xiao Wang, Purdue University, West Lafayette, Email: wangxiao@purdue.edu

Ding-Geng Chen, Arizona State University, Phoenix, Email: Ding-Geng.Chen@asu.edu

Call for Nominations: 2027 COPSS Awards

The nomination cycle is now open for the 2027 Committee of Presidents of Statistical Societies (COPSS) Awards, which highlight and celebrate excellence in the statistical sciences. ICSA

encourages members to learn about the awards and to consider submitting nominations. Details about the awards and the nomination process are available at https://community.amstat.org/copss/awards/nominations.

Nominations are sought for the following awards:

- The Presidents' Award
- COPSS Distinguished Achievement Award and Lectureship
- Florence N. David Award and Lectureship
- George W. Snedecor Award
- COPSS Emerging Leader Award

Nominations are due by December 15, 2026. Members are also welcome to share the call with colleagues and through their networks and social media channels.

International Day of Women in Statistics and Data Science (IDWSDS) (October 6, 2026)

The fifth annual International Day of Women in Statistics and Data Science (IDWSDS) took place virtually on October 6, 2026. This free, 24-hour global conference showcased women's contributions to statistics and data science and brought together statisticians, data scientists, researchers, educators, professionals, and students from around the world. This year's theme, "Creating Global Connections," highlighted the relationships and international collaborations that strengthen the global statistics and data-science community. Everyone was welcome to participate. Learn more at https://www.idwsds.org/.

ICSA and CWS have recently signed an MOA to support the IDWSDS Conference. IDWSDS included ICSA in the Closing Session, held at 0:00 UTC on October 7th, which was 8pm on Tuesday night October 6th in New York. Dr. Rui Feng from the University of Pennsylvania, a former ICSA Treasurer and an active ICSA committee member, represented ICSA and introduced the association to the global audience. ICSA thanks Dr. Feng for this valuable contribution and for her ongoing service to the ICSA community.

The 8th International Symposium on Biopharmaceutical Statistics (October 13 - 16, 2026)

The 8th International Symposium on Biopharmaceutical Statistics took place in Madrid, Spain (https://isbiostat.org/) on October 13-16, 2026. This is the main conference organized by the

International Society for Biopharmaceutical Statistics (ISBS). ICSA was co-sponsoring this symposium.

This scientific conference convened statisticians and quantitative scientists to explore cutting-edge methodologies and their application across the entire biomedical product lifecycle, with a theme of Evidence Insights – Statistical Innovation, Regulatory Science, and the Transformative Impact of AI in Biopharma. It addressed key challenges and opportunities in biomedical product development and post-approval management within the modern regulatory landscape.

The symposium began with short courses, followed by a three-day main conference. The program is designed to foster collaboration and knowledge exchange through:

- Scientific Sessions
- Interactive Workshops
- Panel Discussions
- Networking Events

ASA SLDS 2026 Conference (November 1 - 3, 2026)

Join the ASA Section on Statistical Learning and Data Science for its 2026 Conference co-sponsored by ICSA, November 1–3 in New York City. The theme is "**Inference and Intelligence**," focusing on advances in statistical learning and AI. Keynote speakers include **David Banks** (Duke University), **Dean Foster** (Amazon), **David Rosenberg** (Bloomberg), and **Bin Yu** (University of California, Berkeley).

SLDS welcomes participation from the wider statistical learning and data science community in shaping the event:

- **Invited session proposals**: Jiwei Zhao (jiwei.zhao@wisc.edu) or Wen Zhou (wz3030@nyu.edu)
- **Short course proposals**: Giles Hooker (ghooker@wharton.upenn.edu)
- **Student paper or poster judges**: Nathaniel Sean O'Connell (Nathaniel.Oconnell@wfusm.edu)
- **Sponsorship inquiries**: Jaime Speiser (Jaime.Speiser@wfusm.edu)

The local organizing committee, led by Yang Feng and Wen Zhou of New York University, will host the conference.

Additional information on abstract submission, registration, and program updates will be available on the conference website: **https://asa-slds.github.io/slds2026/**

Corner to Celebrate ICSA Members

This section was created to highlight the achievements of our members. All ICSA members are encouraged to contact Dr. Jun Zhao, the ICSA Executive Director (executive.director@icsa.org) with a brief introduction about themselves and the award.

ICSA Springer Book Series in Statistics

The editor of the ICSA Springer book series in statistics, Dr. Din Chen, has reported that there are 29 books in the series now. **One new book** will be published in 2026, along with 1 and 3 books published in 2025 and 2024, with a detailed message below. If you plan to write books in the series, please contact the co-editors Dr. Din Chen (Ding-Geng.Chen@asu.edu) and Dr. Yichuan Zhao (yichuan@gsu.edu).

ICSA Meetings and Events

The ICSA meetings and events are sponsored by the ICSA. Normally official meetings and events appear on the ICSA website and multiple ICSA communication platforms. If you have any questions, please contact Dr. Jun Zhao, the ICSA Executive Director (executive.director@icsa.org).

All upcoming ICSA conferences and events are listed under the highlights section.

Co-Sponsored Meetings and Events

ICSA has established a general process for co-sponsorship of conferences and events with other organizations and groups. If you are interested in co-sponsoring a conference or an event (e.g., a social event, a career event, etc.) with the ICSA, please contact Dr. Jun Zhao, the ICSA Executive Director (executive.director@icsa.org) for the details.

All upcoming ICSA co-sponsored conferences and events are currently listed under the highlights section.

Obituary

In Memoriam: Dr. Min-Te Chao (1938–2026), A Life Dedicated to Statistics and Scholarly Community Founding

The International Chinese Statistical Association (ICSA) joins the statistical community in mourning Professor Min-Te Chao, founding director of the Institute of Statistical Science, Academia Sinica, who passed away peacefully at home on August 15, 2026, at the age of 88.

A graduate of the University of California, Berkeley, Professor Chao devoted his career to statistical research, institution building, scholarly publishing, and mentoring younger generations. His legacy holds special meaning for ICSA through *Statistica Sinica*, the international journal jointly published by ICSA and the Institute. He conceived both its Chinese

and English titles, leaving a lasting connection to this shared scholarly endeavor. He also founded the *Journal of Data Science* in 2003 and served as its editor-in-chief for eight years.

We remember Professor Chao with gratitude for his vision, intellectual generosity, and dedication to the statistical community. We extend our heartfelt condolences to his family, friends, colleagues, and students. His commitment to open inquiry, mentorship, and scholarly exchange will continue to inspire future generations.

Online Training and Seminars

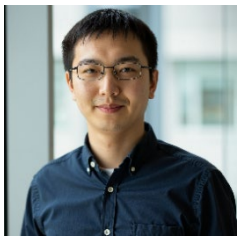

ICSA Webinar Series

The ICSA (Webinar subcommittee, Outreach and Engagement Committee) is planning multiple series of webinars, with topics ranging from career development, statistical knowledge, to cutting-edge statistical methodologies. ICSA members and friends will be notified of future Webinar information through emails, ICSA websites, social media (e.g., X, WeChat, Linked-in), and other social media platforms. The Career Development Webinar Series has been successful and attracted many attendees, especially many junior level statisticians. A new Webinar Series, tentatively named ICSA Journal Highlight Series, has been initiated, and the Webinar Committee hopes to launch the series in the coming year. Stay tuned on other Webinar series that are planned by the Webinar committee.

Upcoming Webinar:
Title: Beyond the Code: AI for Statistical Thinking & Leadership
Speaker: Qing Li & Binbing Yu **Facilitator:** Helena Fan
Date: October 30, 2026, 3:00–4:00 PM ET

Registration link:
https://us06web.zoom.us/webinar/register/WN_nHNaoeFYQPy42YOTMj_EQA

About the Speaker

Dr. Qing Li is Director of Biostatistics at Novartis, leading cross-functional oncology quantitative teams from study design through regulatory decision-making. Previously, he served as Director & Team Lead, US Biostatistics & Data Management at MorphoSys (now part of Novartis), where he managed direct reports and matrix teams and drove data driven decision markings and innovative quantitative strategies that supported pivotal trial readouts in 2023 and acquisition integration in 2024.

Dr. Binbing Yu is a Senior Director and the Head of Oncology Statistical Innovation group in AstraZeneca. He serves as the statistical expert across the whole spectrum of drug R&D process, including clinical research, design, operation and manufacturing, clinical pharmacology, oncology medical affairs and post-marketing surveillance. He obtained his PhD in Statistics from the George Washington University.

About the Facilitator

Helena Fan, co-founder of The Lotus Group, the leading recruitment firm for biometric professionals in the life science industry. With an MBA from the University of Southern California and a Master's in Public Health from West China University of Medical Science in China. Helena brings a wealth of knowledge and expertise accumulated over her impressive 20-year career in the staffing industry.

Title: Statistician Engagement and Real-World Evidence in HTA
Speaker: Ian Bridges & Dai Feng **Chair:** Deli Wang
Date: November 19, 2026, 3:00–4:00 PM ET

Registration link:

Webinar Registration - Zoom

Ian Bridges is a Biostatistics Director at Amgen Ltd. and has over 20 years' experience as a statistician in the pharmaceutical industry. He has worked across all phases of clinical development, in multiple therapeutic areas including nephrology, cardiology, oncology, psychology and neuroscience. In his current role, Ian focusses on HTA statistics. His main interest is in advancing the statisticians' role in evidence generation to support HTA requirements; ultimately improving access to life changing medicines for patients. Ian is currently co-chair of the ASA Biopharmaceutical Section HTA Scientific Working Group.

Dai Feng is a Research Fellow, Director Oncology Therapeutic Area Head for Medical Affairs and Health Technology Assessment (HTA) Statistics at AbbVie. He has over 18 years of experience in the pharmaceutical industry across all stages of drug development, from early discovery through late-stage clinical development and post-approval activities. His experience spans multiple therapeutic areas, including oncology, neuroscience, and immunology. Dai now co-chairs the ASA Biopharmaceutical Section HTA Scientific Working Group. His research interests include machine learning, Bayesian modeling, survival analysis, and using real-world data to generate credible, decision-ready evidence.

Dr. Deli Wang is Director of Statistics and Research Fellow at AbbVie Inc. He received his Ph.D. in Biostatistics from the University of Iowa and has 22 years of combined work experience in academia and biopharmaceutical industry. He has experience in design and conduct of Phase 2 and 3 clinical trials across multiple therapeutic areas (e.g., neuroscience, immunology, oncology, renal disease, infection disease) and is active in statistical methodology research to address questions for drug development, with methodology publications in interim Go/No-Go decision-making,

ICSA Mentoring Lounge

About the ICSA Mentoring Lounge:

ICSA proudly presents a highly interactive Zoom-based mentorship initiative, *ICSA Mentoring Lounge*, designed to support junior statisticians transitioning from academia to industry. During this one-hour

office-hour format session via Zoom, junior statisticians are encouraged to ask questions or submit them in advance.

The first session of the ICSA Mentoring Lounge took place on October 1, 2025, featuring a panel of mentors from leading pharmaceutical companies [Margaret Gamalo (Pfizer), Wei Shen (Eli Lilly and Company), Xun Chen (AbbVie)] and moderated by Yushi Liu (Eli Lilly and Company), Hanfei Xu (Eli Lilly and Company).

- The second session of the ICSA Mentoring Lounge took place on December 5th, 2025, featuring mentors from tech industry [Chang Liu (Google), Zerui Zhang (LinkedIn)] and moderated by Yushi Liu (Eli Lilly and Company), Hanfei Xu (Eli Lilly and Company).
- The third session of the ICSA mentoring Lounge took place on February 20th, 2026, providing opportunities to interact with data science team lead: Haoda Fu (Amgen) and Zhaoling Meng (Sanofi), in pharma industry; and moderated by Yushi Liu & Hanfei Xu (Eli Lilly and Company)
- The fourth session of the ICSA mentoring lounge took place on April 20th, 2026, providing opportunities to interact with finance statistics led by Lei Chen & Roy Tang, moderated by Yushi Liu, Hanfei Xu, & Zhe Sun (Eli Lilly and Company).
- The ICSA Mentor-Mentee Program Fall Social, organized by the ICSA Mentor-Mentee Program Committee, took place in person on October 3rd, 2026, from 1:00 PM to 3:00 PM ET at Room 1101, Duan Family Center for Computing and Data Sciences, Boston University (BU CDS Building), featuring mentors [Jianchang Lin (Takeda Pharmaceuticals), Yaming Hang, Flynn McMorrow (Galderma), Mandy Du (Analysis Group)]. Hosted/organized by Hanfei Xu, and Yushi Liu (Eli Lilly and Company). It was the first in-person event open to the entire Greater Boston statistics/biostatistics student community.

Feedback from the post-session survey was extremely positive, highlighting the value of direct access to industry experts and the opportunity to ask questions directly from the audience.

Job Listings

Assistant Professor in Department of Mathematical Sciences, the Fulbright College of Arts and Sciences, The University of Arkansas

Position Summary

The Department of Mathematical Sciences in the Fulbright College of Arts and Sciences at the University of Arkansas invites applications for a tenure-track Assistant Professor of Statistics to start in August 2027. This is a standard nine-month faculty appointment.

This faculty hire is expected to maintain an active research and publication agenda in statistics or a closely related field and advise MS and PhD students on dissertation research. The successful candidate will also be expected to provide effective instruction and advising to a varied population of students while teaching graduate and undergraduate courses and to have a commitment to university service.

Duties will include:

40% Teaching
40% Research
20% Service

Minimum Qualifications:

· Ph.D. in Statistics, or a closely related field, from an accredited institution of higher education conferred by the date of initial appointment.

· Evidence of, or a demonstrated potential for, an active research agenda in statistics or a closely related field.

Preferred Qualifications:

· Demonstrated research potential in developing statistical methodology that complements, expands, and has potential for collaboration with the expertise of existing faculty in statistics.

· A strong record of refereed publications and potential for external funding.

· Potential for research collaboration with other research groups within the department or other departments across the campus.

· Commitment to, or experience in, teaching statistics courses at the graduate and undergraduate levels.

· Commitment to, or experience in, mentoring undergraduate and graduate students in independent research.

To apply for this job please visit uasys.wd5.myworkdayjobs.com.

Assistant Professor in Optimization and Operations Research / Statistics and Data Science / Financial Mathematics / Engineering and Computational Mathematics / Mathematical Science / Actuarial Science (Ref. 260713005), The Hong Kong Polytechnic University

THE HONG KONG POLYTECHNIC UNIVERSITY

Rooted in 90 years of heritage and intellectual achievement, The Hong Kong Polytechnic University (PolyU) has evolved alongside society and made pivotal contributions to the development of Hong Kong, the Nation and the world. The University pursues world-class excellence in education, research and knowledge transfer to nurture socially responsible professionals and leaders, as well as to drive impactful research and innovation. PolyU will strive to continually excel as an innovative world-class university that makes a positive impact on society, living up to the University's motto: "To learn and to apply, for the benefit of mankind".

Ranked among the top 100 universities globally by well-known ranking organisations such as Quacquarelli Symonds (QS), Times Higher Education (THE) and U.S. News & World Report, PolyU offers a wide range of world-class educational and research programmes in seven faculties and three independent schools. PolyU has furthermore achieved commendable results in the QS World University Rankings by Subject 2026 – it is ranked in the global top 30 for five subjects, is first in Hong Kong for four subjects, and is in the global top 100 for 24 subjects. For further details about the University, please visit PolyU's website at https://www.polyu.edu.hk/.

DEPARTMENT OF APPLIED MATHEMATICS

The Department of Applied Mathematics (AMA) is one of the constituent departments of the Faculty of Computer and Mathematical Sciences. Apart from making a significant contribution to most of other academic programmes of the University by providing service teaching, the Department also offers master programmes in Applied Mathematics for Science and Technology, Operational Research and Risk Analysis and Quantitative Finance and FinTech. Starting from 2025/26 academic year, the Department offers a new Bachelor Scheme in Applied Mathematics and Finance Analytics and Fast-track Integrated Bachelor's and Master's Degree Programmes and will launch a new master programme, MSc in Mathematics for Artificial Intelligence Technology in 2026/27. Members of the Department have expertise in applied optimization and optimal control, engineering computation, operational research, management science and applied statistics, FinTech, data science and machine learning. There are currently 56 academic staff and about 154 research personnel in the Department. Please visit the website at http://www.polyu.edu.hk/ama for more information about the Department.

Duties

The appointees will be required to:

(a) teach and contribute to curriculum development at undergraduate and postgraduate levels;

(b) supervise MPhil and PhD students;

(c) engage in scholarly research, consultancy and other scholarly activities leading to publications in top-tier refereed journals and award of research grants;

(d) undertake academic and departmental administrative duties; and

(e) perform any other duties as assigned by the Head of the Department or his delegates.

Qualifications

Applicants should:

(a) have a PhD degree in Mathematics / Statistics / Financial Mathematics / Operations Research / Computational Mathematics / Applied Mathematics or a closely related field with experience in Data Science and Analytics;

(b) have expertise in applied statistics, operation research or mathematics;

(c) have an established track record in research and scholarship, including refereed publications and external grant applications;

(d) have a demonstrated commitment to excellence in teaching; and

(e) be highly proficient in written and spoken English.

Conditions of Service

A highly competitive remuneration package will be offered. Initial appointment will be on a fixed-term gratuity-bearing contract. Re-engagement thereafter is subject to mutual agreement. For general information on terms and conditions for appointment of academic staff in the University, please visit the website at https://www.polyu.edu.hk/hro/docdrive/careers/doc/Prof.pdf.

Application

Please submit an application through PolyU's career website (https://jobs.polyu.edu.hk/academic). **Consideration of applications will commence on 10 August 2026 until the position is filled.** The University's Personal Information Collection Statement for recruitment can be found at https://www.polyu.edu.hk/hro/careers/pics_for_recruitment/.

PolyU is an equal opportunity employer, dedicated to fostering an environment that embraces diversity and demonstrates inclusion of people from all backgrounds, cultures, identities and experiences where all members of the University are treated with fairness, dignity and respect. To learn more about the University's "Statement on Equal Opportunities, Diversity, and Inclusion", please visit our website at https://www.polyu.edu.hk/hro/equal_opportunities_diversity_and_inclusion/.

Full-time faculty positions (Assistant Professor, Associate Professor, or Professor) in all areas of Mathematics, Applied Mathematics, Scientific Computing, Probability and Statistics, Data Science, and Artificial Intelligence at Department of Applied Mathematics, National Sun Yat-sen University, Kaohsiung, Taiwan

The Department of Applied Mathematics at National Sun Yat-sen University invites applications for several full-time faculty positions (availability subject to the approval by the University) beginning at **August 1, 2027**. Recent PhDs and young researchers with exceptional potential are invited to apply for an assistant professorship, and senior fellows with academic reputation will be considered for an associate or full professorship. Applicants in all areas of mathematics, applied mathematics, scientific computing, and probability and statistics, particularly those who also have expertise in data science and AI, will be considered. A successful candidate should have a Ph.D. in relevant subjects, and the ability to teach in English. Applicants please send a cover letter of application, curriculum vitae, transcripts of highest degree, publication list, and three recommendation letters to the following address by post or email, and fill in the online form for basic information. Applications must be received by **January 15, 2027**.
